

Rejuvalase Refund Policy

There are no refunds on package purchases, gift cards and/or opened products. If a laser package has been prepaid and a client chooses to discontinue treatment, the remaining credit can be applied toward other laser services.

Specials and offers are NOT retroactive; if you've paid in full or in part for a package that goes on special after you've purchased it, you are still responsible for paying the original price.

If medical conditions restrict a client's treatment program, their account will be placed on hold until they can continue services.

For any and all other situations where refunds are requested, the return or credit is left at the sole discretion of the management team.

Rejuvalase MedSpa makes no guarantees on any service or product as results can vary from one client to the next.

Prices and specials discussed verbally and not in written form are not honored. Publish menu or special prices will apply.

Follow-Up Treatments

For some laser hair removal clients, follow-up treatments may be needed. These treatments are 10% of the current menu price. You may also ask about our 3 treatment packages for current clients.

Your signature below is an agreement and understanding of our refund and follow-up policies.
